ABOUT THE SUMMIT

This unique summit unites the allergy community, as well as medical professionals and the companies who support allergy living, management, and safety at ONE event, so that we can make a meaningful impact and difference in the lives of allergy patients and their families.

Connect with and learn from leading experts in the allergy field during joint sessions and dual tracks covering disease management for food allergies, asthma, eosinophilic disorders (EGIDs), FPIES, Celiac disease, mast cell and systemic mastocytosis (SM), and Alpha-Gal Syndrome, as well as a social media track for digital influencers, bloggers, and those wanting to learn more about digital platforms and marketing.

***Company Expo: Don't miss out learning more from our partners, advocacy organizations, and allergy-friendly companies!**
